CUMULATIVE BOOK INDEX 1985—1988

This index lists the titles of books abstracted in *Electrical & Electronics Abstracts* in the period 1985—1988. Most books are abstracted as a single monograph but, where appropriate, individual chapters of the book may also be abstracted. Where this is so the abstract for the book as a whole is indicated by *'(introductory abstract)'*.

Reference to the entry in *Electrical & Electronics Abstracts* is made in the form 88 – 12345, i.e. abstract 12345 of 1988. Where there are a number of entries for a book, e.g. for individual chapters, a range of numbers is shown in the form 88 – 12345 to 12356, i.e. abstract 12345 of 1988 to abstract 12356 of 1988 inclusive.

CUMULATIVE CORPORATE AUTHOR INDEX
1985—1988

This is an index to those items abstracted in *Electrical & Electronics Abstracts* in the period 1985—1988 where a corporate organisation rather than an individual person is the agent primarily responsible for the publication. Such publications typically include reports of industrial firms, government departments, research establishments, etc.

Reference to the entry in *Electrical & Electronics Abstracts* is made in the form 88—12345, i.e. abstract 12345 of 1988. Where there are a number of entries for a given publication, e.g. where individual sections of it are abstracted, a range of numbers is shown in the form 88—12345 to 12356, i.e. abstract 12345 of 1988 to abstract 12356 of 1988 inclusive.

Example of typical entry
